

Culturally Diverse Psychological Service

Dear Doctor

I have become aware of the new Culturally Diverse Psychological Service (CDPS).

It is a free service that provides support to culturally and linguistically diverse clients holding a valid Medicare card, aged 12 years and over for *mild-moderate* psychological distress.

The service is offered by Life Without Barriers and requires a referral by a GP (or Psychiatrist or Paediatrician) using a dedicated referral form.

I would like to be referred to this service.

If I have not brought the referral form with me, you can find it in the Best Practice Premier Software as **CALD Psychological Service GP Referral Form** or obtain it from the Life Without Barriers website (www.lwb.org.au/CDPS). Please complete it and email it to cdps.referrals@lwb.org.au.

More information about the service is on the referral form or the service brochure. You can also contact the service on 0418724549.

Thank you.
